Dear TWF friends

With International Women's Day just around the corner on March 8, 2014, The Women's Foundation is delighted to invite you to an Executive Briefing on TWF's latest research on women in male-dominated industries in Hong Kong.

The event will highlight key themes emerging from the first four events of the TWF/Bloomberg Leading Women Speaker Series, launched in 2012, examining the status of women in logistics & transport, luxury brands, technology, and trading & hedge funds.

The event will also share the main recommendations from the report, which was compiled for The Women's Foundation by the Economist Intelligence Unit, drawing on local and international market data and statistics, and interviews with leading industry figures.
