#RapidTest Initiative Serves 4,500 Underprivileged Families – Thank you!

Dear TWF Friends,

As we continue to face the COVID-19 pandemic, we are immensely grateful for the unwavering support from each one of you who has sponsored or donated Rapid Antigen Tests (RATs) to assist underprivileged women and their families. Over the past few months, in collaboration with our school and community partners, TWF has served over 4,500 underprivileged families with 45,000 RATs during these difficult times.

Our 41 school and NGO distribution partners represent a broad cross-section of the rich diversity in Hong Kong and the many groups of marginalised women and families that were particularly vulnerable over this period, including ethnic minorities, those with disabilities, single parents, the elderly, students, and many of our underprivileged programme participants.

This impact would not have been possible without the generosity of so many organisations and individuals in the community. A heartfelt thank you to the following organisations: Australian Consulate-General Hong Kong, Bloomberg, GAW Capital, HKEX Foundation, Hang Seng Bank, Hysan, Iron Mountain, KCW and Associates, OT&P Healthcare, PCCW, Schroder Investment Management and Visa.

PROGRAMME UPDATES

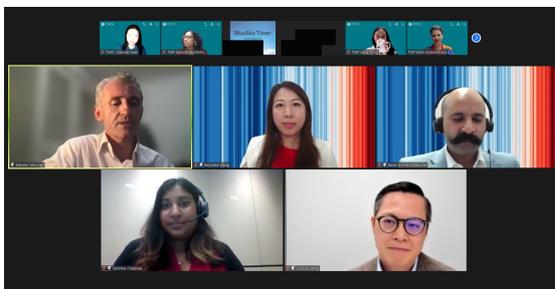

Girls Go Tech: Machine Learning Workshop

On June 11, GGT Programme participants took part in a Machine Learning workshop supported by Apple Education. Participants used Create ML to build an image classification model that can distinguish between images of cats and dogs. They then learned how to integrate their image classification models into an app that allows users to take or upload an image on their phones or tablets. A big thank you to Apple Education for running this insightful workshop!

Digital Literacy Programme 2022

On June 4, we launched the Digital Literacy Programme for 20 upper primary girls and their parents at Chai Wan Kok Catholic Primary School. With encouragement and guidance from their parents, over the past two workshops participants have learned 3D design using the software Tinkercad and coded micro:bit to play sound and light up an LED lighting strip. Heartfelt thanks to Two Sigma for sponsoring the Programme and their passionate volunteers!

Male Allies Debate

On June 7 we held our Male Allies Debate to wrap up our 2021-2022 Male Allies Initiative. In this highly anticipated event, our very own Allies put forth strong arguments for and against the motion 'Meritocracy can create a gender-equal workforce'. Thank you to our debaters Basel Kirmani | Manulife, Belyndia Wang | Edelman, Gemma Chakowa | Macquarie and Joshua Wang | Goldman Sachs for their incredibly detailed, passionate and persuasive arguments, and thank you to Damien Mooney | BlackRock for moderating with such enthusiasm!

IN THE COMMUNITY

[Women in IT Summit Asia 2022](#)

TWF is delighted to support the 2022 Women in IT Summit - [Asia edition](#) and registrations are already open! We invite you to join this free-to-attend virtual conference on June 28, 2022, covering the most pressing tech issues and driving key diversity, equity and inclusion conversations forward.

The Summit's theme is Emerging with Impact, and it will explore how organisations within the tech industry can create action and positive impact in a post-pandemic world.

The [agenda](#) will share educational insights and new and unique perspectives through a blend of panel discussions and workshop tasters.

Revive Tech Asia

TWF is pleased to support Revive Tech Asia, a 2-day in-person business tech show taking place on August 24-25, 2022 at Asia World Expo. The conference aims to gather the most influential minds to celebrate innovations and foster tech transformation and application in the real world.

This is not an event just for IT professionals but for everyone across all industries who is keen to transform business and advance careers with the right technologies. The programme covers a wide spectrum of topics, including Diversity & Inclusion, Future of Work, AI & Data, Cloud technologies and Data Centre, Smart Connectivity, and Sustainability, and more.

Save the dates and get your FREE tickets now!
